NCC Industries, Incorporated, Cortland, NY; Notice of Revised Determination on Reopening

On October 13, 1998 the Department issued a Negative Determination Regarding Eligibility to apply for worker adjustment assistance, applicable to workers and former workers of NCC Industries, Inc., Cortland, New York. The notice was published in the **Federal Register** on October 23, 1998 (63 FR 56942).

By letter of November 10, 1998, the petitioners requested administrative reconsideration regarding the Department's denial. New information provided by the petitioners and the company indicate that the workers would have been covered under a previous certification (TA-W-32,428) except that the layoffs occurred after that petition expired on August 9, 1998. Information from the company states that the original layoff schedule for workers at the subject facility occurred over a longer period of time than originally anticipated due to unanticipated exigencies resulting from a shift in production to an off-shore location. It is the Department's intent to cover all of the affected workers impacted by increased imports at the subject firm.

Conclusion

After careful review of the additional facts obtained on reopening, I conclude that increased imports of articles like or directly competitive with women's

intimate apparel contributed importantly to the declines in sales or production and to the total or partial separation of workers of NCC Industries, Incorporated, Cortland, New York. In accordance with the provisions of the Act, I make the following certification:

All workers of NCC Industries, Incorporated, Cortland, New York, who became totally or partially separated from employment on or after August 10, 1998 through two years of the date of certification are eligible to apply for worker adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC, this 2nd day of February 1999.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.
